### PROFILE

To excel as a versatile full-stack developer, leveraging my expertise in front-end and back-end technologies to deliver innovative and efficient solutions. Committed to continuous learning and collaborating with teams to create exceptional web applications and enhance user experiences.

### WORK EXPERIENCE

#### FULLSTACK DEVELOPER

IHIFIX 2020-PRESENT

- Developing and maintaining front-end interfaces using HTML, CSS, and JavaScript.
- Building server-side applications and APIs using programming languages like Java, Python, or Node.js.
- Integrating databases and managing data storage.
- Collaborating with UI/UX designers to create user-friendly interfaces.
- Ensuring applications are secure, scalable, and optimized for performance.
- Troubleshooting and debugging issues across the entire stack.
- Staying updated with industry trends and best practices.

#### DATA ENTRY

AHMSAL HERITAGE ACADEMY 2020-PRESENT

- Accurately entering data into computer systems and databases.
- Ensuring data is organized, updated, and maintained.
- Verifying and correcting data discrepancies.
- Handling confidential and sensitive information with utmost discretion.
- Collaborating with other team members to ensure data accuracy and completeness.
- Performing data quality checks and validations.
- Managing large volumes of data efficiently and meeting deadlines.

#### FRONTEND DEVELOPER

SCHOOLITE 2020-2021

- Implementing user interface designs using HTML, CSS, and JavaScript.
- Ensuring responsive and cross-browser compatibility of web applications.
- Collaborating with UI/UX designers to create visually appealing and user-friendly interfaces.
- Optimizing web pages for performance and speed.
- Integrating frontend code with back-end services and APIs.
- Conducting testing and debugging to resolve issues.
- Staying updated with the latest frontend technologies and best practices.
